Talk to your clients about their summer holiday plans today. Here's the exotic New Zealand for your consideration! 10 must visit locations when you travel to New Zealand.

Milford Sound

Lying at the most northern and accessible end of Fiordland National Park, Milford sound offers some of the world's most staggering coastal scenery with its dramatic peaks and dark blue waters.

Bay of Islands

The picturesque area contains 144 islands, many secluded bays and some great sandy beaches. This beautiful bay has an abundance of marine life including whales, penguins, dolphins and the big marlin.

Tongariro National Park

The park's diverse range of ecosystems includes tranquil lakes, active volcanoes, herb fields, untamed forests and desert-like plateaus. Start your trek at the Whakapapa Visitor Center, just a three hour hike from the stunning Taranaki Falls.

Rotorua

Rotorua is known as the thermal wonderland of New Zealand. There are numerous geysers and hot springs in and around the city. Many of these are in parks and reserves. Natural eruptions of steam, hot water and mud occasionally occur in new locations.

Franz Josef Glacier

This glacier, located within Westland National Park in the southwest, is one of the world's most accessible. Visitors can walk right up to the foot of the massive glacier or take a helicopter ride over the dazzling Ice Age remnant.

Kaikoura

This small coastal town on the South Island is a haven for seafood lovers. You can spot fur seals, dolphins, sperm whales and albatrosses off the shore, then indulge in a feast of fresh crayfish, mussels, blue cod and more.

Napier Art Deco

Napier, a small city in Hawke's Bay on the North Island's east coast, is famous for its eye-catching art deco architecture. Most of Napier was leveled by an earthquake in 1931. The rebuilding period coincided with the short-lived Art Deco era and as a result Napier's architecture is strikingly different from any other city in the world.

Sky Tower

The Sky Tower is an observation and telecommunications tower located in New Zealand's largest city. At a height of 328 meters (1,076 ft) it is the tallest free-standing structure in the Southern Hemisphere and the Sky Tower has become an iconic structure in Auckland's skyline.

Abel Tasman National Park

Located on the northern tip of the country's South Island, this vast national park is a hiker's dream. Closed to vehicles, one must enter by boat, foot or small plane, but the trip is well worth it.

Coromandel Peninsula

This north-eastern peninsula is famous for its white and golden sand beaches that frame magnificent coastal scenery, forests perfect for days of exploration and other natural wonders.

Why is SIP a smarter investment option?

Disciplined way to invest - a small amount invested regularly every month becomes a sizeable corpus.

Law of averages - because you invest regularly and for a longer period of time, the market highs and lows average out.

Better returns - in the last 3 years, investing in our recommended funds such as ICICI Pru Focused Bluechip Equity delivered a comfortable yield of 25% annually.
