I wish I had started a little early with NPS.

I am 61 now and started my investment in NPS when I was 50 with ₹10,000 per month. My family felt I was over investing and overestimating my returns. There are times when I wanted to stop investing and quit. But, when I retired I got a lump sum of ₹7 lakh and now I am getting a monthly pension of ₹10,000 which is good enough for my expenses. I wish I did invest more in such a wonderful investment plan.

I am 25 years old, about to start saving for my retirement. Checked multiple options and came across your NPS calculator. Found out that I could create a retirement corpus of more than Rs 1 crore for a monthly investment of as little as Rs 3000. Can't wait to start my investment in NPS.

This Diwali, light the diya of financial savings with NPS.
